# **AESTHETIC AND FUNCTIONAL MODERNIZATION FOR YOUR BUILDING**

At A&A Elevator, modernization means more than renovation — it's about enhancing the experience for everyone who enters your building. Our finishes and design options combine functionality, aesthetics, and durability. We help you make an exceptional first impression — from the ground floor up.

CLEAN LINES, DURABLE MATERIALS,  
AND AN OPTIMIZED SENSE OF SPACE.

## MODERN STYLE – MINIMALIST ELEGANCE

Brushed stainless steel finishes, concealed LED lighting, and digital display panels create a sleek, timeless cabin. Perfect for corporate or modern residential buildings seeking clean design and high functionality.

TRADITION, QUALITY, AND CHARACTER  
THAT NEVER GO OUT OF STYLE.

## CLASSIC STYLE – TIMELESS WARMTH

Natural wood panels or walnut-style laminates combined with ergonomic handrails and granite or marble-look vinyl flooring. A perfect option for traditional buildings or family residences that value comfort and elegance.

A BOLD VISUAL EXPERIENCE THAT  
TURNS ROUTINE INTO SOMETHING  
REMARKABLE.

## CONTEMPORARY STYLE – BOLD PERSONALITY

Frosted glass, custom textured laminates, touch buttons, and ambient RGB lighting. A cabin designed for those who want every detail to reflect innovation and personal style.

MAKE YOUR ELEVATOR AN EXTENSION OF YOUR BRAND.

BRANDED DESIGN – CUSTOMIZED SPACES THAT SPEAK YOUR IDENTITY

We bring your brand into the elevator. From laser-engraved or backlit logos to corporate color accents and custom textures, we create cabins that align with your building’s visual identity. Ideal for residential communities, hotels, and commercial spaces that value consistency and recognition.

### CABIN STYLE HIGHLIGHTS

Style	Main Materials	Recommended Use
Modern Style	Brushed stainless steel, textured stainless steel	Corporate buildings, residences
Classic Style	Vinyl, stainless steel	Traditional buildings, institutions
Contemporary Style	Frosted glass, textured laminates, RGB	Modern spaces, premium buildings
Branded Design	Fully customizable per client specs	Hotels, branded offices, condos

We work closely with building owners, administrators, and developers to deliver solutions that meet both operational and aesthetic expectations.

- ✓ **High-Quality Materials**  
Durable finishes designed for long-term performance
- ✓ **Code Compliance & Safety**  
Aligned with current regulations and industry standards
- ✓ **End-to-End Support**  
From design selection to final installation

# PROJECT SPOTLIGHT – MAYFAIR

Mayfair represents how modernization can transform not only an elevator, but the perception of an entire building.

This project combined high-end finishes, refined lighting design, and precise material integration to create a seamless and elevated user experience.

Every detail — from wall panels to control interfaces — was carefully selected to align with the architectural identity of the space.

A benchmark in elevator modernization and design integration
